

Master your Microsoft 365 tenant

Microsoft 365 sprawl, oversharing, and rising storage costs don't fix themselves. Orchestry gives IT teams a single place to see what's happening across Teams, SharePoint, and OneDrive, take guided action, and automate governance at scale.

Native M365 tools surface problems. Orchestry solves them.

What Orchestry covers

Provisioning & Templates	Empower users to create compliant workspaces through a governed self-service experience
Reporting & Insights	Get real-time visibility into your M365 inventory, workspace activity, and compliance status
Automation & Delegation	Automate lifecycle policies and assign governance tasks to content owners
Storage & Archival	Reduce storage costs by managing version history, inactive workspaces, and sprawl
Security & Permissions	Control access, remediate oversharing, and protect sensitive data across your tenant
Guest & User Management	Manage guest access, user activity, and license optimization from one place
OneDrive Management	Govern personal drives at scale, with visibility, sharing controls, and automated review cycles

Orchestry customers see the difference fast.

A global enterprise leveraged Orchestry to archive nearly **10,000 inactive workspaces**, cutting workspace sprawl by **29%** and reaching a **62% lifecycle response rate**.

Why Orchestry

Govenance that works for all users, not just IT.

Business users get a self-service experience that keeps them productive. IT gets the guardrails, automation, and visibility to stay in control without becoming a bottleneck.

One platform, not a patchwork of tools.

Orchestry covers the full governance lifecycle, from provisioning through archival, across Teams, SharePoint, OneDrive, and beyond. No add-on modules, no fragmented admin experience.

Built for scale.

Whether you're managing 200 workspaces or 200,000, Orchestry handles it. Every feature is designed for enterprise-scale environments, not manual one-by-one administration.

Dedicated support and onboarding.

Expert onboarding and North American-based support to help you get value fast.
